

# Virtual AGMs, Yes, we can!

## Virtual AGM Platform

# We Know...

Almost every AGM is a long process with unique needs. We have compiled some of the most common functions:

- ✓ Scheduling AGM date and time
- ✓ Creating a preliminary notice of the meeting
- ✓ Adding a cover letter
- ✓ Merging documents
- ✓ Preliminary notice package delivery
- ✓ Deliver candidate disclosure forms
- ✓ Managing candidate disclosure form deadlines
- ✓ Collecting candidate disclosure forms
- ✓ Create the AGM packaging
- ✓ Merging documents
- ✓ AGM package delivery
- ✓ Providing proxy forms
- ✓ Collecting the proxy forms
- ✓ Vetting the proxy forms

## We built a platform that employs innovative and practical solutions to simplify these business processes.

How many times has a unit owner delivered candidate disclosure forms after the deadline?

How many condo unit owners know their corporation's legal name?

How many proxy forms void because of missing date, time, signature, or initials?

How do you keep track and validate "Owner Occupied" and "General Director" rules when completing a proxy or voting?

What if the registered owner would like to nominate a mortgagee, or a representative to be a proxy or a candidate for board position ?

## Increase meeting participation, create awareness and help meetings reach a quorum:

Reaching a registered owner or mortgagee is key to a successful AGM yet, how accurate is the registered owner's or mortgagee's contact information?

Keeping track of every email sent becomes necessary.

Post email delivery analytics become key.

How about emails that have not been read? Emails that have ended up in junk mail?

What about a campaign of SMS reminders and awareness?

## What if we took care of all of it for you?

# **Then we started *dreaming* of.. What would make an AGM EVEN BETTER**

How about motions, nominations, Q&A, voting, and the virtual meeting integrated in one platform?

How about applying the rules of no voting for unit owners on the arrears list?

What about multiple unit owners, do they vote multiple times?

What if we want to vote real-time on directors' positions, directors' removal, and specific matters?

I voted for specific candidates using the proxy form. Can you keep my voting sequence when counting votes?

How about a unit owner that wants to dial-in to the meeting? – Would they be able to participate in all the AGM functions?

How about unit owners with unstable internet connections? Can they take part in the AGM functions with a live stream?

Can I listen to audio but participate in all AGM functions?

We have thousands of units, can they all participate in the AGMs at the same time?

I'm not technologically savvy. Do I have to install any application to use your platform? Can I use my mobile phone to use your platform?

Who moderates or hosts the meeting?

Does your team support the meeting?

How about an attendee disturbing the meeting? Can you mute or remove the participant from the meeting?

## ***THE GOOD NEWS: Virtualupon AGM effortlessly accomplishes ALL of that!***
